About me

Hello, I'm Vora Aryan, a dedicated computer science student currently pursuing MCA from LDRP-ITR (Gandhinagar). My passion lies in problem solving and full stack web development. Throughout my academic journey, I've gained experience with a wide range of technologies and programming languages. I primarily work with the MERN stack and other JavaScript frameworks. I have a strong foundation in JavaScript, various web technologies, OOP concepts, and networking fundamentals.

Academic Overview:

SSC : 88%
HSC : 90%
BCA : 7.78 CGPA (FIRST DIST.)
MCA : 8.83 CPI

Tools and Technologies (worked with) :

- **Programming Languages :**

  C, C++, Java, Python, Javascript, php, swift

- **Front-End Technologies:**

  HTML, CSS, Saas, Javascript, React-JS, Tailwindcss, Material-UI, Chakra-UI , React-Bootstrap, Redux toolkit, React Hook Form, React Router, Axios

- **Back-End Technologies:**

  Node JS, MongoDB, Express, GraphQL, Web Socket, Firebase, MySql

- **Version Control and Others:**

  Git, github, Netlify, Postman

Skills :

- Quick learner and flexible across different technologies.
- Worked with wide range of programming languages and technologies.
- Familiarity with OOPs concepts and Network fundamentals.
- Good familiarity of Javascript and React as well as Node.JS ecosystem.

Projects:

- Course Management System (PHP, Mysql)
- Food Delivery Landing Page (https://omnifood-aryan.netlify.app)
- Tourism Landing Page (https://natours-aryan.netlify.app)
- Real-time communication using web-socket (socket.io, node, express)
- URL Shortener (node, express, ejs, mongodb)
- WebQR Generator (https://webqr-aryan.vercel.app)
- Movie Rating App (React JS)
